"CLASS" SUPPORT SERVICES

ART THERAPY CLASS

Ages- 2.5-17

An expressive therapy used to promote self-expression and understanding of emotions through the creative process of making art! Works on promoting communication visually instead of only through vocal communication. Creates additional opportunities for sensory integration, improvement of motor skills, flexibility and impulse control, while also targeting social skills, cognitive skills and problem solving skills. The creative process is facilitated by a Registered Art Therapist.

Available Spots: 5 kids for group instruction per section (sections will have support staff)

By appointment/availability for private therapy lessons.
